

**GE TRANSPORTATION SYSTEMS
ERIE, PA
TWI POSITION DESCRIPTION**

JOB DESCRIPTION: Performs as budget analyst, responsible to three different executive level general managers for planning, budgeting, and execution of annual operating budgets totaling \$14.6M. Includes management of 119 personnel spaces and their associated costs. Conducts daily detailed analysis and account maintenance to ensure managers meet financial and headcount goals. Executes business level research to solve broad financial problems and assist with process improvements. Produces multiple periodic financial reports to assist managers with financial decision making. Performs as lead financial representative to the annual bullet train process, responsible to an executive level general manager for cost analysis, tracking, and financial process development/improvement. Leads or participates in multiple special projects, as assigned, to support digitization and process improvement. Key member of intra-company billing process council, which seeks to simplify and digitize that process while assigning accountability to the profit and loss centers. Coordinates with higher, lower, and lateral business units in all aspects of accomplishment of duties, including multiple foreign affiliates. Works with a wide array of software systems in the accomplishment of daily duties.
