III. Reconciliation of Increases and Decreases

<sup>1.</sup> Increase in funding levels in FY2001 & 2002 reflects inflation and corrects an historic shortfall in non-civilian pay dollars.

<sup>2.</sup> Decrease in Service controlled military and civilian manpower in FY02 and 03 reflects the 15 percent AMHA reduction required by FY2000 NDAA.

<sup>4.</sup> Data for Special Operations Forces (USSOCOM and USASOC) provided by SOCOM.

<sup>5.</sup> FY02 and 03 MPA costing is based on FYDP AC MILPERS rates for the FY03 PB.

II. Reconciliation of Increases and Decreases

<sup>1.</sup> USAE SHAPE FY02 and FY03 military strength reduction is due to the postponement of the Deployable Command Module (DCM) until FY04.

# DEPARTMENT OF THE ARMY FY 2003 BUDGET ESTIMATE PROFESSIONAL MILITARY EDUCATION SCHOOLS COMMAND AND GENERAL STAFF COLLEGE

- I. <u>Narrative Description</u>: The Army Command and General Staff College is located at Fort Leavenworth, Kansas, and is the Army's intermediate professional military education school. The resident course is 41 weeks.
- II. <u>Description of Operations Financed</u>: The Army Command and General Staff College provides intermediate level military education to officers of the Active and Reserve Components worldwide to prepare them for duty as field grade commanders and principal staff officers at brigade and higher echelons. The college also provides students with a firm foundation for continued professional growth. Costs for correspondence courses and seminars are excluded. These costs are incurred in other training accounts.

## DEPARTMENT OF THE ARMY FY 2003 BUDGET ESTIMATE PROFESSIONAL MILITARY EDUCATION SCHOOLS COMMAND AND GENERAL STAFF COLLEGE

#### Narrative Explanation of Changes:

<u>FY 2001 – FY 2002</u>: Increase due to TRADOC Transformation. TRADOC Transformation focuses on developing the skills, abilities, and characteristics that soldiers and leaders of the future force must possess to be effective and efficient in a full-spectrum force. This requires changes to the training and leader development education systems and organizational structure.

<u>FY 2002 - FY 2003</u>: Overall program increase reflects program growth in FY 2003. Training and Doctrine Command (TRADOC) has developed a plan to restructure the way the institutional Army trains and accesses soldiers and officers. TRADOC transformation strategy includes a comprehensive redesign of professional military education. Included in this restructure is the transformation of the Command and General Staff College. This new course will provide all majors with quality resident intermediate level education, based upon Officer Personnel Management System (OPMS) XXI. The outcome is a competent and confident field grade leader with a common warfighting knowledge of a division, corps and joint operations.

# DEPARTMENT OF THE ARMY FY 2003 BUDGET ESTIMATE PROFESSIONAL MILITARY EDUCATION SCHOOLS U. S. ARMY WAR COLLEGE

- I. <u>Narrative Description</u>: The Army War College located in Carlisle, Pennsylvania, is the Army's Senior Service School. The Army War College provides professional development education for selected officers and DOD civilians to prepare them to perform increasingly complex tasks as they progress in their careers. The College provides senior level education in the art and science of land warfare, performs strategic studies on the nature and use of the U.S. Army in peace and war, and formulates strategic concepts in order to assist in achieving U.S. national objectives.
- II. <u>Description of Operations Financed</u>: The U.S. Army War College Resident Course (44 weeks) to include funding and manpower for long and short term courses (i.e., Senior Service College Fellows, Defense Leadership and Management Program (DLAMP), Defense Strategy Course, Joint Flag Officer Warfighting Course, GO Courses, etc.). Excludes costs that support the Center for Strategic Leadership, Strategic Studies Institute, Army Global Command and Control System (AGCCS), Army Physical Fitness Research Institute, Military History Institute, and the Department of Distance Education (Correspondence Studies).

# DEPARTMENT OF THE ARMY FY 2003 BUDGET ESTIMATE PROFESSIONAL MILITARY EDUCATION SCHOOLS U. S. ARMY WAR COLLEGE

#### Narrative Explanation of Changes:

FY2001 - FY 2002 Change: Program increase to meet increased requirements for direct workload and the Army Heritage Center.

**FY 2002 - FY 2003 Change**: Army War College funding increases to meet increased requirements for direct workload and the Army Heritage Center. In FY 2003, the workload requirement increases from the FY 2002 level of 295 to 300 an increase of 5 direct loads. The Active Component decreases by 3 loads. The Reserve Component and other workload increases by 5 and 3, respectively. Additional contracts are required to assist in the transition to the new Army Museum at Carlisle Barracks. These contracts will support cataloging, preparation and restoration of Army artifacts and personnel to represent the Army on infrastructure and technical issues with the Pennsylvania state and local county authorities.

- I. <u>Narrative Description</u>: The National Defense University (NDU) is the senior joint professional military educational and research institution operating under the direction of the Chairman, Joint Chiefs of Staff, with the Army as executive agent for the University's components located on the Fort McNair campus in Washington, DC.
- II. <u>Description of Operations Financed</u>: NDU is chartered to ensure excellence in professional military education and research in the essential elements of national security. NDU prepares selected commissioned officers and civilian officials from the Department of Defense, Department of State, and other agencies of the government for high level command, management, and staff responsibilities in a multinational, intergovernmental, or joint national security settings.

The National War College (NWC) and the Industrial College of the Armed Forces (ICAF) offer the principal PME courses of instruction at the Fort McNair campus. Budget data for these colleges are included in this exhibit and as separate exhibits. Budget data for Information Resources Management College (IRMC), the International Fellows Program, NATO Staff Officers' Orientation Course, Reserve Components National Security Course, CAPSTONE Course, the Center for Hemispheric Defense Studies (CHDS), the Africa Center for Strategic Studies (ACSS), the Near East South Asia Center for Strategic Studies (NESA), the Center for Defense Leadership and Management Program (CDLAMP), and the Institute for National Strategic Studies (INSS), which includes the Center for the Study of Chinese Military Affairs, are part of this summary exhibit.

#### Narrative Explanation of Changes:

<u>FY 2001 – FY 2002</u>: Funding increase reflects the transfer in of the Africa Center from the Defense Security Cooperation Agency. Funding also supports building renovation costs to support the Africa Center.

<u>FY 2002 - FY 2003</u>: Funding increase supports a variety of operational requirements for the National Defense University. Funding will purchase textbooks, materials, supplies, furniture and fixtures for classrooms, copyright fees and deferred maintenance of the historical Roosevelt Hall. Functional transfers include funds to support the newly established Congressional Strategic Gaming Initiative at the National Defense University (NDU) and the transfer of the Office of Net Assessment to the Office of the Secretary of Defense (OSD) and Washington Headquarters Services (WHS).

# DEPARTMENT OF THE ARMY FY 2003 BUDGET ESTIMATE PROFESSIONAL MILITARY EDUCATION SCHOOLS NATIONAL WAR COLLEGE

- I. <u>Narrative Description</u>: The National War College, one of the components of the National Defense University (NDU), is a senior joint professional military educational institution under the direction of the President, NDU, with the Army as executive agent. NWC is located on the Fort McNair campus in Washington, DC. The course of instruction is 42 weeks.
- II. <u>Description of Operations Financed</u>: The National War College conducts a senior-level course of study in national security strategy to prepare selected military officers and federal officials for high-level policy, command, and staff responsibilities. NWC focuses on national security policy and strategy; emphasizes a joint and interagency perspective; addresses the formulation of defense policy and military strategy; plans and conducts joint and combined operations; concentrates on the relationship between US national security and the international environment; and examines the processes involved in national security policy decision-making.

# DEPARTMENT OF THE ARMY FY 2003 BUDGET ESTIMATE PROFESSIONAL MILITARY EDUCATION SCHOOLS INDUSTRIAL COLLEGE OF THE ARMED FORCES

- I. <u>Narrative Description</u>: The Industrial College of the Armed Forces (ICAF), one of the components of the National Defense University (NDU), is a senior joint professional military educational institution under the direction of the President, NDU, with the Army as executive agent. ICAF is located on the Fort McNair campus in Washington, DC. The course of instruction is 42 weeks.
- II. <u>Description of Operations Financed</u>: ICAF prepares selected military officers and civilians for senior leadership and staff positions by conducting post-graduate, executive-level courses of study and associated research dealing with the resource component of national power, with special emphasis on materiel acquisition and joint logistics, and their integration into national security strategy for peace and war. Under the direction of the Under Secretary of Defense for Acquisition and Technology, ICAF serves as the course provider for the Senior Acquisition Course directed by the Defense Acquisition Workforce Improvement Act. In this capacity, ICAF acts as a consortium college of the Defense Acquisition University (DAU).

#### DEPARTMENT OF THE ARMY FY 2003 PRESIDENT'S BUDGET Advisory and Assistance Services

The Department of the Army PB-15 Exhibit depicts actual FY 2001 obligations, planned FY 2002 and programmed FY 2003 requirements for Advisory and Assistance Services (A&AS). This exhibit provides aggregated information for Advisory and Assistance Services as defined by the House Conference Report of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999, SEC. 911. The Exhibit includes an Army Summary with Appropriation level of detail. The House Conference Report of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999, SEC. 911, defines Advisory and Assistance Services in terms of three categories of support. These reporting categories are Management and Professional Support Services; Studies, Analyses and Evaluations; and Engineering and Technical Services. The definitions for these three reporting categories, in the order in which they appear in the exhibit, are as follows:

Management and Professional Support Services: Obligations for contractual services that provide engineering or technical support, assistance, advice, or training for the efficient and effective management and operation of organizations, activities, or systems. These services are normally closely related to the basic responsibilities and mission of the using organization. Includes efforts that support or contribute to improved organization of program management, logistics management, project monitoring and reporting, data collection, budgeting, accounting, performance auditing, and administrative/technical support for conferences and training programs. These also include services to review and assess existing managerial policies and organizations; develop alternative procedures, organizations, and policies; and to examine alternative applications and adaptations of existing or developing technologies.

**Studies, Analyses, and Evaluations**: Obligations for contractual services to provide organized, analytic assessments to understand or evaluate complex issues to improve policy development, decision-making, management, or administration, and that result in documents containing data or leading to conclusions or recommendations. Those services may include databases, models, methodologies, and related software in support of a study, analysis, or evaluation.

**Engineering and Technical Services**: Obligations for contractual services that take the form of advice, assistance, training, or hands-on training necessary to maintain and operate fielded weapon systems, equipment, and components (including software when applicable) at design or required levels of effectiveness.

It is important for the reviewer to remember that these resources are reflected in the requirements submitted by specific Army organizations as part of each respective organization's budget submission. This exhibit identifies advisory and assistance resources, in a consolidated form, which Army organizations identified, for these three categories, during the budget data collection process. It does not identify the projects or programs for which A&AS support will be obtained. The reviewer is requested not to overlook that Advisory and Assistance Services are not an individual "Program". Many Programs are represented, but are not separately identified, in this format. The Army's objective is to maximize the work it is capable of performing given the resources that have been allocated and its understanding of Administration policy. An "appropriate mix" of contractor support and in-house personnel consistently varies. The data shown here are in terms of dollars. It is suggested that the reviewer obtain information from each Program to determine the utility of the support being provided and initiate any corrective actions at the Program level. The impact of any recommended changes would be much more apparent if based on Programmatic input than if the suggested changes were based on this exhibit. There is a significant chance of a duplicative reduction occurring on programs when the information included in this exhibit is used to levy funding reductions. Further, resource reductions based on this exhibit do not eliminate the need for A&AS support, it merely makes it more challenging to obtain. Past Congressional concerns about the use of A&AS contracts have provided significant incentive to improve management controls in this area. Recent GAO reviews of the use of A&AS contractor support validate the effects of this improved management scrutiny.

## DEPARTMENT OF THE ARMY FISCAL YEAR 2003 PRESIDENT'S BUDGET

#### APPROPRIATED FUND SUPPORT FOR MORALE, WELFARE AND RECREATION ACTIVITIES (MWR)

(\$ in Thousands)

- 1. The Exhibit OP34 displays total appropriated fund (APF) (direct/indirect) support for Department of the Army managed Morale, Welfare and Recreation (MWR) programs and joint services managed programs. This includes the Defense Commissary Agency and the Army and Air Force Exchange Service (Army support provided as executive agent). The MWR programs are vital to mission accomplishment and form an integral part of the non-pay compensation system. These programs provide a sense of community among patrons and provide support services commonly furnished by other employers, or other State and local governments and citizens. The MWR programs encourage positive individual values, and aid in recruitment and retention of personnel. They provide for the physical, cultural, and social needs, and general well-being of Service members and their families, providing community support systems that make DoD bases temporary hometowns for a mobile military population.
- 2. This information, spanning FYs 01-04 is arrayed by the DOD categorization of MWR: A-Mission Sustaining Programs, B-Basic Community Support Programs, C-Revenue Generating Activities, and Category D-Other MWR and NAFI Programs.
- 3. It is important to note numerous budgetary items, as presented in this Exhibit, are in fact duplicative of other authorization processes. Though an exhibit to the Operation and Maintenance, Army (OMA) appropriation, non-OMA amounts exist in the total for Military Personnel, Army (MPA); Operations and Maintenance, Defense (O&MD); and Military Construction, Army (MCA). The "Other" constitutes non-DOD support to the Intelligence and Security Command.
- 4. Support to the Stars and Stripes newspapers reflects only Army support.
- 5. Any Base Realignment and Closure related major construction is not included.
- 6. DeCA support is shown as footnote entry for FY 01 and FY 02.

## DEPARTMENT OF THE ARMY FY 2003 PRESIDENT'S BUDGET ACTIVE ARMY BANDS

### Description of Operations Financed:

The mission of Army bands is to provide music in order to instill in our soldiers the will to fight and win, foster the support of our citizens, and promote our national interests at home and abroad in support of information operations. Army bands may be assigned secondary missions. These secondary missions are augmentation of security operations for Command Posts and perimeter security for EPW/CI operations. Army bands are assigned to installations and activities and at echelons of command, division and above. Bands have specific missions across the entire spectrum of the operational continuum in peace and in war. This diversity allows situational tailoring of the unit and its functions to meet the needs of the Army, whether at the national, strategic, theater, or tactical level of operations. The figures shown are for Army bands in the Active Army only.

### Narrative Explanation of Change:

Most MPA increases between fiscal years 2001 and 2002 are due to projected pay increases. There was no increase in personnel structure in FY 2001. There is an increase of 15 personnel in FY 2002 to meet unique international relations and troop support missions of CINC, US Forces Korea. These spaces came from other headquarters spaces within US Forces Korea, and two additional spaces will be authorized in FY 2003. Annual increases in OMA funding are flat in constant dollars. Projected increases in total performances, particularly in the popular music area, are in response to increased emphasis on support for Army recruiting. Projected increases in audience and broadcast exposure are the result of improvements in marketing being implemented now. Moderate increases in bugle missions are projected for next few fiscal years based on the large number of WWII/Korea era soldiers. This may result in a decrease in other types of missions because personnel are diverted to support military funerals.

# DEPARTMENT OF ARMY FY 2003 PRESIDENT'S PROGRAM Environmental Restoration Program Funding by Priorities

### IV. DOD Cleanup Performance Goals (Metrics)

Have sites cleaned up to lower Relative-risk category or have Remedial systems in place for:

50% of High Sites by end of FY 2002

100% of High Sites by end of FY 2007

100% of Medium Sites by end of FY 2011

100% of Low Sites by end of FY 2014

### A. Component Cleanup Performance Goals by FY to ensure DoD goals are met

|                            |        | FY 2001 | FY2002   | FY2003   | 2003-2002 |
|----------------------------|--------|---------|----------|----------|-----------|

### DEPARTMENT OF ARMY FY 2003 PRESIDENT'S BUDGET

## Environmental Restoration Program Reconciliation of Increases and Decreases

### I. Description of Operations Financed:

The Environmental Restoration, Army appropriation provides for identification, investigation, and cleanup of past contamination from hazardous substances and wastes. In FY 1984, the Congress established the DERA appropriation to provide increased emphasis and visibility of expanded environmental restoration efforts on both active installations and formerly used lands. In FY 1986, Congress provided the Department with the authority to transfer funds from the central DERA appropriation to the various Defense appropriations to finance environmental restoration efforts. In FY 1996, DoD began a relative risk approach to environmental cleanup. This process enables the Department to prioritize cleanup activities that pose the greatest danger to the health and safety of the environment and public in the context of regulatory agreements.

Program focus is execution of high relative risk projects, especially with agreements. Due to regulator, public interest and/or pressure to execute sites other than high relative risk, medium/low/not evaluated sites are being planned for execution. In addition, medium/low/not evaluated sites may be integral to the clean up of high relative risk sites.

Beginning in FY 2001, the Army has budgeted initial funds for Unexploded Ordnance (UXO) Inventory and Cleanup. In the Environmental Restoration, Army appropriation, \$10 million each year is currently earmarked for UXO inventory/cleanup at closed ranges. The challenge for the Army is to plan and implement an effective, integrated, and proactive program for the cleanup of unexploded ordnance and munitions constituents associated with activities at closed ranges. The Army is an active participant in the comprehensive effort to establish the policy and implementing procedures by which to make accurate cost estimates and to efficiently accomplish the necessary cleanup.

## Environmental Restoration Program Reconciliation of Increases and Decreases

### C. Reconciliation: Increases and Decreases

|  | Amount | Total   |
|--|--------|---------|
| 1. Program Growth in FY 2003   |        | _       |
| a) Hazardous and Petroleum Waste Projects:   | 4 775  |         |
| (1) Priority 1B - High Relative Risk Without Agreements. Increase due to focus on RIP/RC.                    | 1,775  |         |
| (2) Priority 2A - Medium Relative Risk With Agreements. Increase to achieve RIP/RC at smaller installations. | 2,857  |         |
| (3) Priority 4B - Not Evaluated without Agreements. Increase due to workplan changes.                        | 47     |         |
| (4) Remedial Action Operations. Increase due to sites achieving RIP  | 3,834  |         |
| (5) LT Monitoring. Increase due to workplan changes.   | 6,730  |         |
| b) Potentially Responsible Party. Increase due focus on PRP issues.  | 827    |         |
| c) Total Program Increases   |        | 16,070  |
| 2. Program Reductions in FY 2003   |        |         |
| a) Program Management and Support. Decrease due to workplan changes.   | -3,643 |         |
| b) Hazardous and Petroleum Waste Projects:   |        |         |
| (1) Priority 1A - High Relative Risk With Agreements. Decrease due to large dollar projects in FY02.         | -1,440 |         |
| (2) Priority 2B. Medium Relative Risk Without Agreements. Decrease due to large dollar projects in FY02.     | -1,426 |         |
| (3) Priority 3A. Low Relative Risk With Agreements. Decrease due to focus on high risk sites.                | -5,424 |         |
| (4) Priority 3B. Low Relative Risk Without Agreements. Decrease due to focus on high risk sites.             | -1,030 |         |
| (5) Priority 4A. Not evaluated With Agreements. Decrease due to focus on high risk sites.                    | -24    |         |
| c) Other Hazardous Waste (UXO Cleanup). Not Evaluated. Decrease due to workplan adjustments.                 | -80    |         |
| d) Total Program Reductions  |        | -13,067 |
| 3. Net Program Change in FY 2003   |        | 3,003   |

### DEPARTMENT OF ARMY FY 2003 PRESIDENT'S BUDGET

### Environmental Restoration Program Reconciliation of Increases and Decreases

### III. Performance Critera and Evaluation Summary

Program emphasis is on cleanup versus studies. Over the period FY 2001 through FY 2003, total share of funding devoted to cleanup increases from 51.9 percent to 60.3 percent and long term monitoring and operation increases 3 percent, while analysis drops from 26.6 percent to 13.3 percent. Goal is to keep program management costs to approximately 10-12 percent of total funding. Program management trend shows constant level at 11-14 percent (Includes costs for DSMOA, ATSDR and PRP). FY 2001 through FY 2003 includes funding for UXO. The high average percentage of projected program management costs is the result of UXO funds in support of program management and range inventory prior to initiation of response actions and other projected program management requirements. If not required, these funds are provided for execution.

|            | FY 2001 | FY 2002 | FY 2003 |
|------------|---------|---------|---------|
| PM         | 40,880  | 56,397  | 49,377  |
| ANALYSIS   | 103,440 | 91,737  | 52,575  |
| CLEANUP    | 202,056 | 194,917 | 238,683 |
| LTM&O      | 42,698  | 44,040  | 55,265  |
| % PM       | 10.50%  | 14.60%  | 12.50%  |

### IV. DOD Cleanup Performance Goals (Metrics)

Have sites cleaned up to lower Relative-risk category or have Remedial systems in place for:

50% of High Sites by end of FY 2002

100% of High Sites by end of FY 2007

100% of Medium Sites by end of FY 2011

100% of Low Sites by end of FY 2014

Component Cleanup Performance Goals by FY to ensure DoD goals are met:

|                            |        | FY 2004 | FY 2005 | FY 2006 | FY 2007 |

Environmental Cleanup Program Outside the United States

(Memo entry for amounts included above)

Change FY02/FY03:

During the year of execution, installations complete family housing projects with associated environmental costs. Increased funding in FY03 is related to increased requirements for hazardous waste disposal for family housing projects.

Change FY02/FY03:

During the year of execution, installations complete family housing projects with associated environmental costs. Increased funding in FY03 is related to increased requirements for hazardous waste disposal for family housing projects.

Change FY02/FY03:

Funding is to meet environmental requirements for the Production Base Support for the Procurement of Ammunition, Army appropriation. Funding varies dramatically by media from year to year, depending on what projects are planned for a specific year. Some funding beginning in FY03 was realigned to OMA to match execution.

### **Environmental Cleanup Program Outside the United States** (Memo entry for amounts included above)

Army Working Capital Fund (AWCF) data is a projection of Army Materiel Command's estimated execution for environmental requirements.

Change FY02/FY03:

Funding is realigned among media areas to support evolving mission requirements. Recurring costs have increased due to the updating of annual plans and the demolition of WWII facilities. Nonrecurring costs were increased in FY02 to develop Watershed Action plans. The decrease in FY03 and out reflects the sustainment of these plans.

### **Environmental Cleanup Program Outside the United States** (Memo entry for amounts included above)

Change FY02/FY03:

FY02 funding supports a power plant cooling system upgrade at Fort Wainwright, Alaska that will reduce the condensation produced during the winter months to meet state air quality control requirements. There are no major environmental construction projects in FY03.

#### Change FY02/FY03:

The increase in overall funding reflects an Army leadership decision to increase program funding. The manpower increase from FY02 to FY03 reflects underfunding of MACOM identified requirements in FY02 and fully funding the requirements in FY03.

In Compliance, the increase in Recurring Costs is attributed to a leadership decision to increase the program providing additional resources for environmental program management requirements including increased manpower. Furthermore, various plans require regular periodic updates. The frequency of updates varies with the requirement and may occur annually or at a greater period of time. As a result, fluctuations in cost can be expected to occur over time. The increase in Compliance in RCRA C Hazardous Waste is due to increased corrective actions performed in FY03. For RCRA D Solid Waste, the decrease in Compliance non-recurring cost is due to a decrease in requirements related to closures or corrective actions at solid waste landfills. The decreased Compliance funding in the Clean Air Act is caused by the execution of projects related to the new National Emission Standards for Hazardous Air Pollutants (NESHAPs) in FY02; execution will fluctuate over time as new NESHAPs are implemented.

The increase in Recurring Costs for Conservation results from properly realigning funds to recurring costs for the annual revision of Natural and Cultural plans, along with updates to planning level surveys. The increase in Conservation Non Recurring Costs reflects funding required to comply with the Endangered Species Act, Clean Water Act and Sikes Act.

In Pollution Prevention, the overall decrease in Recurring Costs is the result of Pollution Prevention Plans and Ozone Depleting Substance Elimination Plans being updated in FY02. Increases in Nonrecurring costs for hazardous material reduction in Pollution Prevention are due to increased activity to reduce hazardous materials in the Army and centralized funding for Army-wide completion of the Hazardous Material Management Program.

#### Change FY02/FY03:

The increase in overall funding reflects an Army leadership decision to increase program funding. The manpower increase from FY02 to FY03 reflects underfunding of MACOM identified requirements in FY02 and fully funding the requirements in FY03.

In Compliance, the increase in Recurring Costs is attributed to a leadership decision to increase the program providing additional resources for environmental program management requirements including increased manpower. Furthermore, various plans require regular periodic updates. The frequency of updates varies with the requirement and may occur annually or at a greater period of time. As a result, fluctuations in cost can be expected to occur over time. The increase in Compliance in RCRA C Hazardous Waste is due to increased corrective actions performed in FY03. For RCRA D Solid Waste, the decrease in Compliance non-recurring cost is due to a decrease in requirements related to closures or corrective actions at solid waste landfills. The decreased Compliance funding in the Clean Air Act is caused by the execution of projects related to the new National Emission Standards for Hazardous Air Pollutants (NESHAPs) in FY02; execution will fluctuate over time as new NESHAPs are implemented.

The increase in Recurring Costs for Conservation results from properly realigning funds to recurring costs for the annual revision of Natural and Cultural plans, along with updates to planning level surveys. The increase in Conservation Non Recurring Costs reflects funding required to comply with the Endangered Species Act, Clean Water Act and Sikes Act.

In Pollution Prevention, the overall decrease in Recurring Costs is the result of Pollution Prevention Plans and Ozone Depleting Substance Elimination Plans being updated in FY02. Increases in Nonrecurring costs for hazardous material reduction in Pollution Prevention are due to increased activity to reduce hazardous materials in the Army and centralized funding for Army-wide completion of the Hazardous Material Management Program.

**Environmental Cleanup Program Outside the United States** (Memo entry for amounts included above)

Change FY02/FY03:

The decrease in the program is attributed to an Army decision to realign funds so all commands are funded consistently. The decrease in Other Recurring Costs is due to various plans being developed in FY02 and only sustained thereafter. Frequency of updates varies with the requirement and may be annually, every 3 years, every 5 years, etc. As a result, fluctuations in cost can be expected to occur over time. Increases in Nonrecurring costs for Compliance are due to increased activity to remove Underground Storage tanks. Decreases in Clean Water Act non-recurring costs in FY03 reflect a decrease in point source control projects compared to the previous fiscal year.

**Environmental Cleanup Program Outside the United States** (Memo entry for amounts included above)

Change FY02/FY03:

The increase in funding for Other Recurring Costs reflect the need for additional resources to meet program management requirements. The large increase in FY03 funding in Nonrecurring Costs for Compliance is primarily due to Safe Drinking Water Act costs associated with the Massachusetts Military Reservation Impact Area Groundwater Study.

**Environmental Cleanup Program Outside the United States** (Memo entry for amounts included above)

Change FY02/FY03:

OPA funding for the Pollution Prevention Investment fund is terminated in FY01. There are no requirements for OPA in FY02. The FY03 requirement is for the upgrade of computer hardware to support Army Environmental Reporting systems. The FY04 to FY07 requirement reflects the centralized fielding of hardware for the Hazardous Waste Management System (HSMS).

Change FY02/FY03:

The increase in overall funding reflects an Army leadership decision to increase program funding. The manpower increase from FY02 to FY03 reflects underfunding of MACOM identified requirements in FY02 and fully funding the requirements in FY03.

In Compliance, the increase in Recurring Costs is attributed to a leadership decision to increase the program providing additional resources for environmental program management requirements including increased manpower. Furthermore, various plans require regular periodic updates. The frequency of updates varies with the requirement and may occur annually or at a greater period of time. As a result, fluctuations in cost can be expected to occur over time. The increase in Compliance in RCRA C Hazardous Waste is due to increased corrective actions performed in FY03. For RCRA D Solid Waste, the decrease in Compliance non-recurring cost is due to a decrease in requirements related to closures or corrective actions at solid waste landfills. The decreased Compliance funding in the Clean Air Act is caused by the execution of projects related to the new National Emission Standards for Hazardous Air Pollutants (NESHAPs) in FY02; execution will fluctuate over time as new NESHAPs are implemented.

The increase in Recurring Costs for Conservation results from properly realigning funds to recurring costs for the annual revision of Natural and Cultural plans, along with updates to planning level surveys. The increase in Conservation Non Recurring Costs reflects funding required to comply with the Endangered Species Act, Clean Water Act and Sikes Act.

In Pollution Prevention, the overall decrease in Recurring Costs is the result of Pollution Prevention Plans and Ozone Depleting Substance Elimination Plans being updated in FY02. Increases in Nonrecurring costs for hazardous material reduction in Pollution Prevention are due to increased activity to reduce hazardous materials in the Army and centralized funding for Army-wide completion of the Hazardous Material Management Program.

Environmental Security Technology

Appropriation: RDTE S&T

Exhibit PB-28A Explanation of Changes:

#### Change FY 2002/FY 2003:

BA2, Applied Research adjustments were a result of Congressional modifications in FY02 (Congressional reduction of \$6.1M and a Congressional add of \$13.7M), and an Army modification in FY03 to start Sustainable Training Range Program. The BA3, Advanced Technology Development increase was a result of Congressional modifications in FY02 (Congressional reduction of \$1M and Congressional add of \$3.5M). Decrease in BA4, Demonstration and Validation, reflect a Congressional add in FY02 (\$27.6M). All changes between FY02-FY03 are direct results of Congressional adjustments to the FY02 Presidents Budget Request and not adjustments to the FY03 planned program.
