III. RECONCILIATION OF INCREASES AND DECREASES

1. Overall manpower position represents achievement of congressionally directed AMHA reductions in FY 2005.
2. Combatant Command and Special Forces (SOF) changes are directed by OSD and are outside Army control.
3. U.S. Army North established as an Army Service Component Command (ASCC) to U.S. Northern Command in FY 2006 with funding programmed for FY 2008 and out. Funding for FY 2007 was a year of execution issue.
4. Departmental Support Activities rolled into Departmental Activities in FY 2007.
5. Military Composite Cost Rate has been updated to PBR 0913 FDYP MIL PER rate effective 30 August 2007.
6. The activation of U.S. Army North as an ASCC to U.S. Northern Command and the restructure of existing ASCC's (U.S. Army Central, U.S. Army South, U.S. Army Europe, U.S. Pacific Command) will result in a temporary manpower increase to the Army Management Headquarters Account. These restructures are based on lessons learned from OIF/OEF to support the Combatant Commands. An analysis to identify offsets to the manpower increases is on-going.
7. U.S. AFRICOM Command activates in FY 2009 causing an increase to total MHA.

ARMY WAR COLLEGE

I. Narrative Description:

The U.S. Army War College, a Middle States Commission on Higher Education accredited graduate level institution, located in Carlisle, Pennsylvania, is the Army's Senior Service School. The U.S. Army War College provides professional development education for selected officers, DoD civilians, interagency and international leaders to prepare them for the responsibilities of strategic leadership; educates current and future leaders on the development and employment of land power in a joint, multinational, interagency, and intergovernmental environment; conducts research and produces publications on national security and military strategy; and engages in activities that support the Army's strategic communication efforts. The U.S. Army War College also runs a two year non-resident course that principally supports the Reserve Component as well as officers from other services, DoD civilians, Interagency personnel, and International leaders. Starting with Academic Year (AY) 2007, all graduates received JPME II level certification after undergoing a rigorous accreditation process. (Certification was back dated to AY 2007 graduates).

II. Description of Operations Financed:

The U.S. Army War College Resident Course (40 weeks) including funding and manpower supporting the long and short courses (i.e., Senior Service College Fellows, Defense Leadership and Management Program (DLAMP), Strategic Art Program (FA59), Joint Force Land Component Command Course (JFLCC), Defense Strategy Course, Joint Flag Officer War fighting Course, GO Courses, etc.), the Center for Strategic Leadership, the Strategic Studies Institute, Peacekeeping and Stability Operations Institute, and the Department of Distance Education (Distance Learning Courses). Does not include resources to support the Army Heritage and Education Center (AHEC) and the Army Global Command and Control System (AGCCS).

DEPARTMENT OF THE ARMY
Fiscal Year (FY) 2009 Budget Estimates

NOTES:

- * Part III, Financial Summary includes all MDEP FAWC O&M funding plus composite rate military personnel costs associated with Professional Military Education (PME), Strategic Communications, and Army Research missions.
 - FY 2007/FY 2008 change in Military Personnel resulted from changing Staff ratio from 70 percent Army/30 percent sister services to 60 percent/40 percent to conform to JPME requirements.
 - FY 2008/FY 2009 change in Civilian Personnel resulted from two projected expansions for the Peace Keeping and Stability Operations and the Army Physical Fitness Research Institutes.
- Average Cost Per Student Load overstated based on the following:
 - MDEP FAWC, APE 323751 total funding used for Part III, Financial Summary, Mission (O&M) plus costing for all Military Personnel assigned to the USAWC to include the Center for Strategic Leadership and the Strategic Studies Institute, excludes the Army Heritage and Education Center.
 - Student load totals only recognizes Distance Education students for the two weeks (resident requirement) vice the 52 week support requirement per FY.

Fiscal Year (FY) 2009 Budget Estimates**

ARMY COMMAND AND GENERAL STAFF COLLEGE (CGSC)

I. Narrative Description:

The Army Command and General Staff College is located at Fort Leavenworth, Kansas and is the Army's intermediate professional military education school. The resident course is 41 weeks.

II. Description of Operations Financed:

The Army Command and General Staff College provides intermediate level military education to officers of the Active and Reserve Components worldwide to prepare them for duty as field grade commanders and principal staff officers at brigade and higher echelons. The college also provides students with a firm foundation for continued professional growth. Costs for correspondence courses and seminars are excluded.

Description of Changes:

FY 2007 - FY 2009: O&M mission decrease is mostly due to one-time costs in FY 2007 for the new Lewis and Clark Building (final phase).

FY 2008 - FY 2009: O&M mission increase is primarily due to the programmed increase to student load and additional civilian instructors required/authorized to train the load in support of Joint Professional Military Education Requirements (JPME) of one instructor per four students.

NOTE: Performance Criteria changed to reflect affordable input, output, and workload levels as a result of a recently developed capability to derive this data. Previous submissions presented training requirement input, output, and workload.

ARMY SERGEANTS MAJOR ACADEMY

I. Narrative Description:

The U.S. Army Sergeants Major Academy (USASMA) is located on Biggs Army Airfield at Fort Bliss, Texas, and serves as the TRADOC/CAC lead and Executive Agent for the Noncommissioned Officer Education System. It is the senior enlisted leader professional development institution for the Army's noncommissioned officers and ensures quality training, education, and professional development for the Noncommissioned Officer Corps.

II. Description of Operations Financed:

The USASMA is funded for the training and education of senior Army noncommissioned officer (NCO) students and their spouses, Battle Staff NCO Course students, First Sergeant Course students, and the development and maintenance of the Warrior Leader Course, Basic and Advanced NCO Course Common Core. Training programs for resident courses consist of the Sergeants Major Course (Max 720 students, nine months, conducted once per year, which includes an International Fellows Program and Pre-Course), the Command Sergeants Major Course (40 students, one week, held six times a year to be held 12 times per year at Fort Leavenworth, Kansas), and the Command Sergeants Major Spouse Seminar (also conducted at Fort Leavenworth, Kansas). It also includes a Spouse Leadership Development Course for spouses of Soldiers attending the Sergeants Major Course. It also includes the Battle Staff NCO Course and the First Sergeant Course, which are done in residence and via video teletraining (VTT). A nonresident Sergeants Major Course is also conducted with a two-week resident phase at the Sergeants Major Academy. The Sergeants Major Academy also conducts the BNCOC Common Core phase via VTT.

**Department of the Army
Fiscal Year (FY) 2009 Budget Estimates
Advisory and Assistance Services**

The Department of the Army PB-15 Exhibit depicts actual FY 2007 obligations, approved FY 2008, and programmed FY 2009 requirements for Advisory and Assistance Services (A&AS). The FY 2007 obligations include funds made available by the Supplemental Appropriations provided to the Department of Defense (DoD). The FY 2008 and FY 2009 resources reflect only the requirements from the basic appropriations and do not reflect any supplemental requirements. The purpose of the exhibit is to provide Congress with actual estimates on the amount spent by DoD on advisory and assistance services. These services are utilized to enhance, assist, or improve the ability of government employees to make decisions on governmental processes, program, and systems. Congressional concern stems from both the cost and nature of advisory and assistance services. When contractors provide advice or assistance that may affect decision-making, influence policy development, or provide support to project or program management, it is essential to ensure that the contractor's performance is free of potential conflicts of interest and does not impinge upon the performance of inherently governmental functions by government employees. This exhibit provides aggregated information for Advisory and Assistance Services as defined by the House Conference Report of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999, SEC. 911. The exhibit includes an Army summary with appropriation level of detail.

The House Conference Report of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999, SEC. 911, defines Advisory and Assistance Services in terms of three categories of support. These reporting categories are Management and Professional Support Services; Studies, Analyses, and Evaluations; and Engineering and Technical Services. The definitions for these three reporting categories, in the order in which they appear in the exhibit, are as follows:

Management and Professional Support Services: Obligations for contractual services that provide engineering or technical support, assistance, advice, or training for the efficient and effective management, and operation of organizations, activities, or systems. These services are normally closely related to the basic responsibilities and mission of the using organization. They include efforts that support or contribute to improved organization or program management, logistics management, project monitoring and reporting, data collection, budgeting, accounting, performance auditing, and administrative/technical support for conferences and training programs. These services are used to review and assess existing managerial policies and organizations; develop alternative procedures, organizations, and policies; and to examine alternative applications and adaptations of existing or developing technologies. Examples of current efforts include the provision of detailed knowledge of requirements/procedures as mandated by the Global Exchange of Military Information (GEMI) or Housing Market Analysis for Army to provide housing requirements as a result of IGPBS/AMF.

Studies, Analyses, and Evaluations: Obligations for contractual services to provide organized, analytic assessments to understand or evaluate

PB-15 Advisory and Assistance Services

Fiscal Year (FY) 2009 Budget Estimates
Advisory and Assistance Services**

complex issues to improve policy development, decision-making, management, or administration, and that result in documents containing data or leading to conclusions or recommendations. Those services may include databases, models, methodologies, and related software in support of a study, analysis, or evaluation. Work in this category of A&AS includes an annual survey schedule with optional additional years due to the Army's plan to change their current civilian personnel system into the National Security Personnel System (NSPS). Surveys will identify key drivers of employee and supervisor satisfaction, and on-site development of action plans based on survey results. Additional comparisons of survey responses are required for NSPS Spiral and Non- Spiral organizations.

Engineering and Technical Services: Obligations for contractual services that take the form of advice, assistance, training, or hands-on training necessary to maintain and operate fielded weapon systems, equipment, and components (including software when applicable) at design or required levels of effectiveness. Support for the Global Combat Support System generated an abundance of requirements for support in this particular category. RDT&E requirements account for more than 50 percent of the funds identified in this category. Resources support fulfillment of a legal obligation sharing engineering services cost for the Multiple Launch Rocket System with Norway, The Netherlands, Denmark and Greece. They are also providing support to the demonstration of enhanced survivability and lethality of Future Combat Systems platforms through the effective employment of C3 On-The-Move systems.

It is important for the reviewer to remember that these resources are reflected in the requirements submitted by specific Army organizations as part of each respective organization's budget submission. This exhibit identifies advisory and assistance resources, in a consolidated form, which Army organizations identified, for these three categories, during the budget data collection process. It does not identify the projects or programs for which A&AS support will be obtained. The reviewer is requested not to overlook that Advisory and Assistance Services are not an individual "program." Many Programs are represented, but are not separately identified, in this format. The Army's objective is to maximize the work it is capable of performing, given the resources that have been allocated and its understanding of administration policy. An "appropriate mix" of contractor support and in-house personnel constantly varies. The truth of this observation has never been clearer than when looking at the FY 2007 data and seeing the impact that Operation Iraqi Freedom and Operation Enduring Freedom has had on Army requirements for Advisory and Assistance Services. It is suggested that the reviewer obtain information from each program to determine the utility of the support being provided and initiate any corrective actions at the program level. The impact of any recommended changes would be much more apparent if based on programmatic input than if the suggested changes were based on this exhibit. There is also a significant chance of a duplicative reduction occurring on programs when the information included in this exhibit is used to levy funding reductions. The Army has undertaken a Lean Six Sigma review to ensure that what the Army is doing is necessary, that the steps to accomplish a task are as efficient as possible, and that the organizational structure supports the task.

DEPARTMENT OF THE ARMY
Fiscal Year (FY) 2009 Budget Estimates
ENV 30 – Part 1, Defense Environmental Restoration Program

Environmental Restoration, Army (ER, A)

The Environmental Restoration, Army (ER, A) appropriation focuses on reducing the risks to human health and the environment at active installations, while ensuring that Army environmental cleanup policy conforms to existing laws and regulations. The ER, A appropriation provides for the identification, investigation, and cleanup of past contamination (prior to 1986) from hazardous substances and waste under the Installation Restoration Program (IRP) and contamination prior to 2003 from unexploded ordnance, discarded military munitions, and munitions constituents at other than operational ranges under the Military Munitions Response Program (MMRP). In FY 2008, the ER, A Active Sites IRP will receive \$396.3 million, and the ER, A MMRP will receive \$41.4 million. The IRP is planning 65 percent towards cleanup in FY 2008 and 60 percent in FY 2009. The IRP is currently on track to have all sites achieve remedy (RIP/response complete) by the end of FY 2014. Between FY 2008 and FY 2009, the Active Sites ER, A increases by \$16.1 million, reflecting price growth of \$7.4 million, programmatic increases of \$82.3 million, and programmatic reductions of \$79.7 million (2.3 percent increase).

BRAC Environmental Restoration Program

The Army's BRAC Environmental Restoration Program is a comprehensive program to identify, investigate, and clean-up contamination at closing and realigning Army installations resulting from past Army activities on or emanation from the closed or realigned parcels.

The program focus is execution of projects that result in transferring acreage and achieving goals for remedy in place/response complete (RIP/response complete). In addition to achieving program goals and objectives, these projects must protect human health and the environment, provide beneficial reuse of property, and meet legally enforceable requirements. Performance-based contracting and Environmental Services Cooperative Agreements are employed to expedite the transfer of property as well as save money.
