Environmental Restoration, Army Funding

The Environmental Restoration, Army (ERA) appropriation is used to reduce risks to human health and the environment at active installations, while ensuring that Army environmental cleanup actions conform to existing laws and regulations. The ERA appropriation provides for: the identification, investigation, and cleanup of contamination from hazardous substances and wastes under the Installation Restoration Program (IRP) and contamination from unexploded ordnance, discarded military munitions, and munitions constituents at other than operational ranges under the Military Munitions Response Program (MMRP).

FY 2022 Active Sites program changes are as follows:

- FY 2022 IRP increased by 2.7% (\$5.2 million).
 - IRP Investigations increased 81.7% (\$47.1 million) due to an increase of the number of remedial investigations.
 - IRP Remedial Action (RA) decreased -45.1% (\$-50.1 million) due to a decrease to the number of remedial actions.
- FY 2022 MMRP decreased -4.6% (\$-2.8 million).
 - MMRP Investigations increased 106.9% (\$6.7 million) due to several larger munitions response sites.
 - MMRP RA decreased -24.5% (\$-13.0 million) due to Army still being in the investigation phase at several munitions response sites.
- FY 2022 Management decreased -5.3% (\$-2.5 million).

FY 2023 Active program changes are as follows:

- FY 2023 Installation Restoration Program (IRP) increases by 44.7% (\$61.8 million).
 - IRP Investigations increases 126.2% (\$40.4 million) due to Congressional add allowing for an increase in the number of investigations.
 - IRP Remedial Action (RA) increases 35.1% (\$29.1 million) due to Congressional add allowing for an increase in the number of remedial actions.
- FY 2023 Military Munitions Response Program (MMRP) increases 353.4% (\$52.8 million)
 - MMRP Investigations increases 315.4% (\$4.5 million) due to a Congressional add allowing for an increase in the number of Remedial Investigations.
 - MMRP Remedial Action increases 375.6% (\$48.4 million) due to a Congressional add allowing for an increase in the number of Remedial Actions.
- FY 2023 Management increases 31.7% (\$13.6 million) due to a Congressional add for PFAS Remediation and Restoration Advisory Boards under the Support for Specialized Technical Issues.

DEPARTMENT OF THE ARMY
Fiscal Year (FY) 2024 Budget Estimates
Operation and Maintenance, Army
Appropriated Fund Support for MWR Activities
(\$ in Millions)

The OP-34 displays the Department of the Army's Appropriated Funds (APF) in support of select Quality of Life programs. These select programs and services provide a balanced approach to help Soldiers and their Families mitigate the unique demands of military life. People remain as a cornerstone Army priority and Quality of Life programs help to protect this most valuable asset by improving satisfaction with military life that leads to increased retention and readiness.

For Morale, Welfare and Recreation programs (MWR), this exhibit is presented in accordance with the DoD categorization of MWR programs: A-Mission Sustaining; B-Basic Community Support; and C-Revenue Generating; and other funding to include AAFES. Army executes MWR under the Uniform Funding and Management (UFM) process, which merges APF and Non appropriated Funds (NAF) for the purposes of providing MWR services using NAF rules and procedures. This exhibit provides visibility of both APF authorizations and NAF employee full-time equivalents (FTE) performing functions that are authorized APF reimbursed through UFM procedures into NAF.

The 2024 President's Budget submission for these select Soldier and Family Programs continues to build on the foundation of people as a priority and the Army's greatest asset. Programs and services are available to all components with varied delivery options that now include select, expanded patronage to disabled veterans, appropriated and non-appropriated fund civilians. Quality of Life programs remain targeted to increase the health and well-being of Soldiers and their Families both on and off military installations. Programs reflect statutory, policy and other guidance and support the efforts of the Quality of Life Task Force and the People First Task Force.

Military Personnel, Army (2010). The FY24 funding increase is based on FY24 increased pay raises.

Operation and Maintenance, Army (OMA) (2020) CAT A, B, C Programs. The FY24 increase supports mission essential physical fitness, sports, and athletics, as well as aquatics for Soldier Family Quality of Life activities.

OMA (2020) Warfighter and Family Services (Non-MWR). FY24 funding continues to support Exceptional Family Member Program (EFMP) service delivery across the Army.

OMA (2020) Youth Program. FY24 increases to support youth program priorities and demand.

Fiscal Year (FY) 2024 Budget Estimates
Operation and Maintenance, Army
Appropriated Fund Support for MWR Activities
(\$ in Millions)

NGPA (2060) Warfighter and Family (Non-MWR). The decreases in FY23 and FY24 reflect revised mobilization assumptions for Yellow Ribbon Reintegration Program (YRRP) events, which now falls under enduring operations. Fewer Deployment Cycle Event Coordinators are required to plan the Yellow Ribbon Reintegration Program (YRRP) events.

OMNG (2065) CAT A, B, C Programs. The increase in FY24 supports equipment in support of the National Guards' annual competitive sports events in marksmanship, biathlon, LEAPfest (parachuting), and marathon.

OMNG (2065) Warfighter and Family (Non-MWR). FY24 increases to support steady personnel fill rate with reduced staff turnover.

OMNG (2065) Army Other Voluntary Education Programs. Education programs are increasing to meet projected demand to support Soldiers enrollments in FY24.

OMNG (2065) Tuition Assistance (TA). FY24 increase is due to growth of enrollments as projected demand to support Soldiers increases.

RPA (2070) Warfighter and Family. Increases are for Base Pay, Base Allowance for Subsistence (BAS), and Base Allowance for Housing (BAH).

OMAR (2080) Army Other Voluntary Education Programs. Education programs are increasing due to projected demand to support Soldiers tuition and credentialing assistance enrollments in FY24.

OMAR (2080) Army Reserve Tuition Assistance (TA). Education programs increased funding for projected demand to support Soldiers tuition and credentialing assistance enrollments in FY24.

The Army remains committed to maintaining a balanced portfolio of programs that are fiscally sustainable and promote Soldier and Family well-being and desire to serve for the long term. One important way to do this is to provide quality and sustainable Soldier and Family Programs that reduce stress, support resilient Families, and enhance readiness. These are some of the critical outcomes that help ensure the Army continues to make MWR and Family Programs a priority.

Explanation of Funding Changes:

The Department of the Army PB-15 Exhibit depicts estimated requirements for Advisory and Assistance Services (A&AS). The purpose of the exhibit is to provide Congress with estimates for A&AS. These services enhance, assist, or improve the ability of government employees to make decisions on governmental processes, programs, and systems. This exhibit provides aggregated information for A&AS as defined by the House Conference Report of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999, SEC. 911. The exhibit includes an Army summary with Appropriation level of detail.

A&AS is defined in terms of four reporting categories: Management and Professional Support Services; Studies, Analyses and Evaluations; Engineering and Technical Services; and Training and Leadership Development. The definitions for these categories are:

Management and Professional Support Services: Obligations for contractual services that provide business and operational support, assistance, advice, or training for efficient and effective management, and operation of organizations, activities, or systems. These services are closely related to the basic responsibilities and mission of the organization. They include efforts that support or contribute to improved organization or program management, logistics management, project monitoring and reporting, data collection, budgeting, accounting, performance auditing, and administrative/technical support for conferences and training programs. These services are used to review and assess existing managerial policies and organizations; develop alternative procedures, organizations, and policies; and to examine alternative applications of technologies. Examples of Management and Professional Support Services include contracts to provide for programmatic and logistical support, project management support, analysis and integration, safety, reset/sustainment/fielding, system testing support, depot support, training support, systems engineering and integration, and development associated with the current and emerging systems. No major change from FY 2023 to FY 2024.

Studies, Analyses, and Evaluations: Obligations for contractual services to provide organized, analytic assessments to understand or evaluate complex issues to improve policy development, decision-making, management, or administration, that result in decisions or recommendations. Those services may include databases, models, methodologies, and related software in support of a study, analysis, or evaluation. No major change from FY 2023 to FY 2024.

Engineering and Technical Services: Obligations for contractual services that take the form of advice, assistance, training, or hands-on training necessary to maintain and operate fielded weapon systems, equipment, and components (including software when applicable) at design or required levels of effectiveness. Included in this category are engineering and technical services to provide technical expertise in the areas of advance system concepts, technology integration, and system engineering support/materials consistent with technology insertion plans and programs; and engineering and technical support in the areas of system engineering, software engineering, test and evaluation, data management, system safety and environmental initiatives. No major change from FY 2023 to FY 2024.

Training and Leadership Development: Obligations for advisory and assistance services contracts for training costs associated with basic, intermediate and advanced training requirements essential to the growth of employees and organizations that are funded via contracts from non-Federal sources. Included in this category are professional development training and tuition that advances the mission of the agency/organization and services contracts that train staff to achieve efficient and effective management and operation of organizations, activities, or systems. No major change from FY 2023 to FY 2024.

ARMY COMMAND AND GENERAL STAFF COLLEGE

I. Narrative Description:

The U.S. Army Command and General Staff Colleges (USACGSC) as part of Army University, supports Army Leader Development and Education and Professional Military Education, provides a stable beacon for the future. USACGSC executes professional military education programs through its three schools: the Command and General Staff School, the School of Advanced Military Studies, and the School for Command Preparation all at Fort Leavenworth, Kansas; and its four satellite campuses at Fort Belvoir, Virginia, Fort Lee, Virginia, Fort Gordon, Georgia, and Redstone Arsenal, Alabama. USACGSC ensures the professional vitality of the US Army's corps of officers by preparing them to transition from today's contemporary operating environment to tomorrow's joint, interagency, and multinational operations. USACGSC replicates that operational environment in the classroom and is therefore more than an "Army" school; but is a joint, interagency, and multinational college with international officers, sister service and interagency students and faculty. The School of Advanced Military Studies (SAMS) educates the future leaders of our Armed Forces, our Allies, and other U.S. government agencies at the graduate level to be agile and adaptive leaders who think critically at the strategic and operational levels to solve complex ambiguous problems. School for Command Preparation (SCP) organizes, administers, and conducts preparation courses for battalion and brigade level command selectees, as well as noncommissioned officers chosen to serve as Command Sergeants Major.

II. Description of Operations Financed:

The USACGSC includes funding and manpower for the Intermediate Level Education (ILE) 44 weeks and three days resident course. In addition, resources support the satellite campuses where the ILE common core curriculum (13.3 weeks) is provided. At completion of the common core, the Officer enrolls in either their Functional Area follow-on course or the ILE Distance Education Advanced Operations Course. Graduates of the ILE resident, ILE satellite and follow-on course, and/or the ILE Distance Education program meet requirements for Joint Professional Military Education Phase 1 level certification.

ARMY WAR COLLEGE

I. Narrative Description:

The U.S. Army War College (USAWC), a Middle States Commission on Higher Education accredited graduate level institution, located in Carlisle, Pennsylvania, is the Army's Senior Service School. It provides professional development education for selected officers, Department of Defense civilians, interagency, and international leaders to prepare them for the responsibilities of strategic leadership in a joint, interagency, intergovernmental, and multinational environment. The Army War College educates current and future leaders on the development and employment of land power; supports the operational and institutional force; conducts and publishes research to influence thought on national security and military strategy; and supports the Army's strategic communication efforts. USAWC offers a one-year resident program and a two-year non-resident program, both of which result in the award of a Master of Strategic Studies degree and Senior Service College credit. Graduates of the resident program meet requirements for Joint Professional Military Education (JPME) Phase II level certification and graduates of the Distance Education Program meet the requirements for JPME I level certification. At the request of the Chief of Staff of the Army, USAWC also offers a portfolio of short duration executive education courses to provide General Officers, Senior Colonels and Command Sergeants Major developmental opportunities to bridge the strategic education gap identified in the Review of Education, Training, and Assignments for Leaders study.

II. Description of Operations Financed:

The USAWC includes funding and manpower for the Resident Education Program (40 weeks), the Distance Education Program (two years, with two 2-week sessions in-residence each year), and several other long and short courses (i.e., Senior Service College Fellows, Strategic Art Program (FA59), Joint Force Land Component Command Course, Defense Strategy Course, Joint Flag Officer Warfighting Course, General Officer Courses, etc.). USAWC is responsible for funding the Army Strategic Education Program which executes and oversees all General Officer education for all Army components. Additionally, USAWC operations include funding for the Center for Strategic Leadership and Development, and the US Army War College Press and Strategic Studies Institute.

Total Army EOD Funding

Instructions: Each component is requested to provide FY24 funding requests relating to explosive ordnance disposal for Operations and Maintenance; Procurement; and Research, Development, Testing, and Evaluation appropriations. Please fill out the budget request tab with the FY22 execution for all explosive ordnance disposal programs and include funding enacted in the FY23, and the requested amount in PB 2024 (Base and OCO) for all O&M, procurement, and R&D appropriations.

Section 343 of the FY 2017 NDAA (PL 114-328) defines explosive ordnance disposal as the following:

(1) EXPLOSIVE ORDNANCE.—The term “explosive ordnance”

Means any munition containing explosives, nuclear fission or fusion materials, or biological or chemical agents, including—

(A) bombs and warheads;

(B) guided and ballistic missiles;

(C) artillery, mortar, rocket, and small arms munitions;

(D) mines, torpedoes, and depth charges;

(E) demolition charges;

(F) pyrotechnics;

(G) clusters and dispensers;

(H) cartridge and propellant actuated devices;

(I) electro-explosive devices; and

(J) clandestine and improvised explosive devices.

(2) DISPOSAL.—The term “disposal” means, with respect to explosive ordnance, the detection, identification, field evaluation, explosive ordnance, the detection, identification, field evaluation, defeat, disablement, or rendering safe, recovery and exploitation, defeat, disablement, or rendering safe, recovery and exploitation, and final disposition of the ordnance.
