Footnote:

A full-year FY 2024 appropriation for this account was not enacted at the time the budget was prepared; therefore, the budget assumes this account is operating under the Further Continuing Appropriations and Other Extensions, 2024 (Public Law 118-35). The amounts included for FY 2024 reflect the annualized level provided by the continuing resolution.

FY 2023 includes \$40.8 million in Overseas Operations Costs (OOC) Actuals. FY 2024 includes \$46.8 million in OOC Request. FY 2025 includes \$43.4 million for the OOC Budget Estimate. OOC were financed previously with former Overseas Contingency Operations (OCO) funding.

**Description of Operations Financed:**

The Operation and Maintenance, Army National Guard (OMNG) appropriation supports operating and maintaining Army National Guard (ARNG) units in 50 States, 3 territories and the District of Columbia. Funding supports two Budget Activities and 20 Subactivity Groups, resourcing a range of programs such as training and operations support, air and ground operations, Chemical, Biological, Radioactive, Nuclear or High-Yield Explosive Enterprise (including Civil Support Teams), Cyber force structure and support, pay and benefits for Military Technicians and Department of the Army Civilians, automation and information systems, base operations, education programs, medical readiness, mission support, schools support, second destination transportation, State Partnership Program, facilities sustainment, restoration and modernization, communications, supply activities, transportation and depot maintenance, military funeral honors, and recruiting and advertising.

**Overall Assessment:**

This Fiscal Year (FY) 2025 Army National Guard Operation budget request totals \$8,646.1 million. This submission supports the United States Army and Joint Force goals of achieving National Defense Strategy (NDS) objectives to maintain integrated deterrence around the globe and to build enduring advantages against adversary aggression. This year's budget balances the ARNG's dual mission, addressing Army requirements while simultaneously defending the homeland against various threats, including natural disasters and emergencies.

The FY 2025 budget maintains the ARNG military end strength at 325,000. To meet that end strength goal, the ARNG remains focused on new recruiting and retention initiatives to address the recruiting challenges. The budget supports 4,087 full-time and 422 part-time recruiters and invests in marketing and advertising strategies.

Operation and Maintenance, Army National Guard  
Introductory Statement (Appropriation Highlights)  
(\$ In Millions)

The FY 2025 budget resources 27,311 full-time equivalents (FTEs) which includes 21,035 Dual Status Military Technicians (MILTECHs) and 6,276 Department of the Army Civilians (DAC) FTEs. MILTECHs are critical Full-Time Support personnel responsible for the maintenance, training, and administration of all ARNG units and organizations to provide trained and ready units to the Joint Force. DACs provide force generation capability and continuity of operations to ensure trained and ready forces across the 50 States, three territories, and the District of Columbia. They develop and administer programs that build capability and capacity as part of the Total Army.

The Army National Guard (ARNG) consists of over 2,882 installations and readiness generating facilities. These facilities are vital to the readiness of the ARNG and dual federal and state mission success.

**People**

The FY 2025 budget resources 40 full-time support personnel for the Integrated Primary Prevention program, and two full-time support personnel for the Resiliency Program. This continues to enhance the Army's Implementation of the Independent Review Commission's recommendations to build resilient Soldiers and Families and enhance quality of life. The FY 2025 budget provides for the 2.0 percent civilian pay raise and invests \$27.6 million in civilian talent management.

**Training and Readiness**

The FY 2025 budget supports readiness and lethality by providing trained, ready, and cost-effective forces for operational missions, and capacity to support strategic surge requirements for Large-Scale Combat Operations (LSCO) in a Multidomain environment, or other unanticipated national crises. This budget resources the ARNG to build and maintain readiness, while modernizing and recapitalizing key capabilities in support of the priorities directed by the Army and the Chief of the National Guard Bureau. ARNG facilitates and enhances the training readiness of a competition and conflict ready force that meets Army of 2030 objectives and supports LSCO by balancing readiness and modernization requirements under the Regionally Aligned Readiness and Modernization Model.

The ARNG will conduct two Combat Training Center rotations at two major training sites (National Training Center and Joint Readiness Training Center) to build readiness that supports deterring adversaries around the globe and operate in a Multidomain environment as part of the Joint Force. The ARNG will also conduct three Exportable Combat Training Capability events in Georgia, Virginia, and Washington. Overall, ground forces will achieve platoon-minus proficiency in FY 2025. The FY 2025 budget increases the ARNG's flying hour program by \$32.3 million, increasing flight crew safety and flying proficiency to 7.5 hours per crew per month.

The FY 2025 budget invests in the State Partnership Program's (SPP) capability to deter strategic attacks against our homeland, allies, and partners. The ARNG increases the SPP program by \$7.2 million and supports two new partner nations in FY 2025 to build defense capabilities, promote regional stability, and shape international security.

The ARNG Base Operations Support (BOS) request aligns with recent execution levels to ensure funding of known FY 2025 requirements. BOS funding request supports ARNG family programs, Soldier support programs, prevention programs, installation protection services, municipal services to installations, airfield support, and fire and emergency services across the 50 States, three Territories, and the District of Columbia.

Sustainment increases by \$77.5 million to resource sustainment at 86 percent of the Facility Sustainment Model requirements to enhance quality of life for Soldiers, families, and civilians.

**I. Description of Operations Financed:**

**AVIATION ASSETS** - Funds the training and operations of Aviation Assets leveraging live, virtual, and constructive capabilities to conduct collective training focused on Multidomain Operations capabilities. Includes the Overseas Operations Costs (OOC) funded operations and mission support across multiple theaters of operations.

Funds training and operations within both the Ground Homes Station Training and Aviation Flying Hour Programs required to achieve readiness across the Army National Guard's (ARNG) aviation units and all organic forces associated units within. The incremental costs associated with pre-deployment Title 32 unit training and support are included in the OOC.

Funds fuel, supplies, and repair parts to support unit trainings, maintenance programs and other special training activities, and the cost to operate tactical headquarters. This program does not include the Contract Logistics Support maintenance costs for fixed wing aircraft and the UH-72A fleet - these costs are budgeted by the Active Component.

The ARNG funds aviation units to conduct Combined Arms Training Strategy training based on the Regionally Aligned Readiness and Modernization Model and will meet Directed Readiness Table requirements.

**Home Station Training** - Funds aviation unit training at home station that includes the operations and maintenance of unit ground and air equipment.

**I. Description of Operations Financed:**

**FORCE READINESS OPERATIONS SUPPORT** – Supports the operation of training ranges and associated facilities; expenses for the Chief, National Guard Bureau to participate in Joint Chiefs of Staff exercises; centralized procurement, and issue of clothing and equipment; and operation of key communication and intelligence systems. This Subactivity Group (SAG) also funds the Army Foundry Intelligence Training Program equipment and supply purchases, and Foundry platform sustainment. The Foundry program is a Senior Intelligence Officer program oriented primarily at the war fighting commands. Includes manpower authorizations, peculiar and support equipment, necessary facilities, and the associated costs specifically identified and measurable to these units. Includes the Overseas Operations Costs (OOC) funded operations and mission support across multiple theaters of operations.

**Army Security Program** – Provides resources for (1) a centralized program for the management of Commercial Satellite (COMSAT) airtime across the Army. The program includes support for all Army programs and consolidates all Army COMSAT requirements to support Department of the Army validated missions; and (2) resources the General Intelligence Security mission and Functions, which includes the following program areas: Information Security, Personnel Security, Industrial Security, Communications Security Policy, Security Education, Training and Awareness, Special Access Program Security, Sensitive Compartmented Information Security, Foreign Disclosure, and Technology Protection.

**Continuing Education Program** – The program supports higher education of Soldiers to increase recruiting and retention goals and develop future Army National Guard (ARNG) leaders. The ARNG supports a variety of education programs that focus on degree or certificate completion. multi-domain data access, secure voice, video, and data at Army occupied sensitive compartmented information facilities, TROJAN Network operations, the required Risk Management Framework, and critical infrastructure and architecture support.

**Military Support to Civil Authority (Joint CONUS Communications Support Environment)** – Provides resources for the 57 ARNG Civil Support Teams' (CST) training and operational mission support to civil authorities at domestic Chemical, Biological, Radiological, Nuclear, and Explosives (CBRNE) incident sites. CBRNE supports all operations relating to the defense against Weapons of Mass Destruction. Each of these units receive extensive individual and collective training and is equipped with both military and specialized commercial off the shelf (COTS) equipment to support their mission.

The ARNG conducts full scale training exercises for units responding to CBRNE Consequence events as well as natural disasters. Domestic Exercises, such as Vigilant Guard and other Combatant Command exercises such as Ardent Sentry, provide a means to train ARNG units on interoperability, processes, communication systems, networks, and equipment that provide capabilities for quick and efficient response to events around the world. Typical mission capabilities include rescuing casualties trapped in rubble, decontamination, and performing medical triage and initial treatment to stabilize for transport to a medical facility.

**I. Description of Operations Financed:**

**LAND FORCES DEPOT MAINTENANCE** - Funding supports the repair and overhaul of Army National Guard equipment and mitigates the impacts of high levels of equipment usage in support of training requirements. The Depot maintenance program facilitates achievement of the Army's expected equipment life cycle. The program is a "repair and return to user" process as opposed to a supply exchange transaction. Depot Maintenance supports the Army's Modernization and Equipping Strategies by sustaining the availability and reliability of fielded systems.

**Aircraft - End Items** - Provides overhaul, repair, rebuild, and depot level field teams for aviation platforms, aircraft survivability equipment, and aviation secondary items. These platforms provide air superiority, ground force security, and aerial escort capability. Examples include the UH-60 Blackhawk, the AH-64 Apache, and Aviation ground support equipment.

**Army Tactical Wheeled Vehicles - Other Maintenance** - Sustains end items and supported systems including Family of Medium Tactical Vehicles, High Mobility Multipurpose Wheeled Vehicles, line-haul tractors, trailers, and Heavy Expanded Mobility Tactical Trucks.

**Combat Vehicles - End Items** - Provides overhaul, repair, and depot level field teams for maneuver vehicles. These platforms provide mobility, lethality, and attack capability. Examples include the M3A3 Bradley Fighting Vehicles, the M88A1/M88A2 Heavy Equipment Recovery Combat Utility Lifting, and the Paladin M109A6 Howitzer Medium Self Propelled.

**Communications - Electronic End Items** - Funds end items supporting sustainment readiness of Command, Control, Communications, Computers, Cyber, Intelligence, Surveillance and Reconnaissance (C5ISR) across the life cycle of C5ISR systems.

**Missiles - End Items** - Provides overhaul, repair, rebuild, and depot level field teams for air defense platforms, rocket systems, and missiles. These platforms provide protection for ground forces and critical assets from tactical ballistic and cruise missiles through long and short range missile defense, precision fires, and integrated airspace management. Examples include the High-Mobility Artillery Rocket System and Airspace Management equipment.

**Other - End Items** - Funds the maintenance overhaul of other end items including the Test, Management and Diagnostic Equipment, calibration, the Control Humidity Preservation program, Radiation Safety program, construction equipment, and general equipment end items. Supported systems include, but are not limited to, Tactical Water Purification System, small arms, towed howitzers, and troop support equipment.

**II. Force Structure Summary:**

There are no force structure requirements in this Subactivity Group.

Budget Activity 01: Operating Forces  
Activity Group 13: Land Forces Readiness Support  
Detail by Subactivity Group 132: Facilities Sustainment, Restoration and Modernization

**I. Description of Operations Financed:**

**SUSTAINMENT, RESTORATION AND MODERNIZATION, and FACILITY REDUCTION PROGRAM** - Finances operations, activities, and initiatives necessary to maintain and sustain the Army National Guard's (ARNG) facilities. Activities include sustainment, maintenance, and repair of facilities, restoring facilities to industry standards, and modernization of facilities to meet the full range of tasks necessary to provide relevant and ready land power. This program also supports the reduction of excess and obsolete inventory.

**Sustainment - Real Property Maintenance** - Provides funds for maintenance and repair necessary to sustain facilities in good working order and follow industry standards. Activities include recurring maintenance checks and emergency repairs, plumbing, electrical, heating, ventilation, air conditioning maintenance and repair, major components repair, and replacement of roofs, furnaces, and air conditioners. Sustainment funding is required to prevent deterioration and corrosion of existing facilities and to complement the ARNG's restoration and modernization efforts.

**Restoration and Modernization** - Restoration funding provides the resources necessary to restore degraded facilities to working conditions. Restoration consists of repair and replacement work to fix facilities damaged by previous inadequate sustainment, excessive age, natural disasters, fires, and accidents. Modernization funding provides resources necessary to upgrade facilities to meet new standards or fulfill new functions. Modernization alters facilities solely to implement new or advanced technologies, accommodate new functions, or replace building components that exceed the overall service life of the facilities. Modernization provides upgrades to bring systems into compliance with current building code, enables handicap access, and enhances Force Protection. Energy sustainment security initiatives support the Environmental Protection Act of 2005 and the Energy Independence and Security Act of 2007. These initiatives reduce future costs of operation and maintenance; and enhance operational and business effectiveness through institutionalizing energy considerations in Army planning and processes. Energy modernization efforts increase strategic energy resilience by developing alternative/assured fuels and energy.

**Facility Reduction Program** - Provides funds for the disposal of excess and obsolete facilities. The age, size, and condition of these facilities make them expensive to sustain and they have become cost ineffective to restore or modernize.

**II. Force Structure Summary:**

There are no force structure requirements in this Subactivity Group.

Budget Activity 01: Operating Forces  
Activity Group 15: Cyber Activities  
Detail by Subactivity Group 151: Cyber Activities - Cyberspace Operations

**I. Description of Operations Financed:**

**CYBER ACTIVITIES - CYBERSPACE OPERATIONS** - Supports organizing, training, and equipping the Army National Guard cyber forces capable of conducting full-spectrum cyber operations as directed by and per federal and state authorities. The units resourced include the 91st Cyber Brigade and 54 Defensive Cyber Operations Elements (DCOEs), located at the state/territory's Joint Force Headquarters (JFHQ).

The 91st Cyber Brigade Headquarters provides training readiness oversight of five deployable battalion headquarters with each battalion comprised of two Cyber Protection Teams, one Cyber Security Company, and one Cyber Warfare Company. Personnel assigned to these units attend individual training courses to meet Department of Defense Directive (DoDD) 8570 and US Cyber Command's Cyber Mission Forces (CMF) Training Pipeline requirement. The USCYBERCOM CMF Training Pipeline also requires collective training and certification via participation at exercises such as Cyber Shield.

The Cyber Protection Team (CPT) mission is to conduct Defensive Cyberspace Operations (DCO) on military networks to support mission requirements. In compliance with federal and state laws, DCO may expand to include cyber command readiness inspections, vulnerability assessments, support for Theater Security Cooperation activities, and other similar activities.

The mission of the Cyber Security Company is to conduct DCO in support of corps and below, other Unified Land Operations, and the Joint force. The company may also provide mission command to the Cyber Security Team, Cyber Security Support Team, and Critical Infrastructure Team, which includes operational direction and guidance in the conduct of DCO.

The mission of the Cyber Warfare Company is to conduct Cyberspace Operations in support of corps and below, other Unified Land Operations, and the Joint force. The Company may also provide Mission Command to the Network Warfare Team, the Cyber Analysis Team, and the Cyber Support Team which includes operational direction and guidance in the conduct of Cyberspace Operations.

The Cyber Protection Team - Mission Element (CPT-ME) mission is to conduct DCO on specified terrain in response to ongoing or imminent threats against the Department of Defense Information Network (DODIN) network and infrastructure as needed. CPT-MEs are employed as a maneuver force to project forces and capabilities, or remotely project capabilities. CPT-ME has the added capability to respond on state authorities and act to defend the DODIN, as well as state and local networks.

DCOEs at each of the 50 States', three territories', and District of Columbia's JFHQ conduct DCO and Internal Defensive Measures to secure their portion of the DODIN. On order, DCOEs protect critical state infrastructure and respond to state cyber emergencies as directed by The Adjutant General or Governor. Personnel assigned to these units are required to attend individual training courses to meet DoDD 8570 requirements. Collective training certification is conducted via participation in the annual Cyber Shield exercise.
