MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Fiscal Year (FY) 2023 Army Ground Reimbursable Rates

1. Enclosed are the FY 2023 Army Ground Reimbursable Rates that have been developed by the Deputy Assistant Secretary of the Army for Cost and Economics (DASA-CE) and deemed sufficient to support the Army's standard business processes.
2. The 2023 Ground Reimbursable Rates were developed for 122 commonly requested Army vehicles, and systems, by specific Line Item Numbers (LINs). The DASA-CE, is responsible for retrieving, analyzing, and normalizing the cost data from multiple data sources to develop the reimbursable rates. The primary goal is to establish a reimbursable rate for each vehicle per day without personnel, and each vehicle per day with personnel. The ground reimbursable rate considers costs for repairable parts, consumable parts, and Petroleum Oil and Lubricant (POL) per mile cumulating to a total daily combined rate. Additionally, rates consider vehicle depreciation per day, based on the LOGSA vehicle cost, and an estimated useful life. Finally, the personnel cost per day are calculated using the Department of Defense Personnel Reimbursable Rates for 2023. These rates will be published on the DASA-CE Cost Performance Portal October 2022.
3. The FY 2023 Army Ground Reimbursement Rates are valid for the period of October 1, 2022, through September 30, 2023. They will also be published on the Army Financial Management and Comptroller website, <https://www.asafm.army.mil>, on the Documents & Resources tab under *Cost and Economics*. They are also available on the DASA-CE Cost & Performance Portal under *Cost Estimating Tools & Information*.
4. For any Army vehicle rates not included in the enclosure please contact DASA-CE for specific rate information. My point of contact for this review is Mr. Breon Mitchell, Chief Unit Mission Costing Division at (703) 692-7388 or breon.a.mitchell.civ@army.mil.
